FNM Group | Trenord: IQ 2022 Highlights

Improving performance thanks to traffic recovery, partially compensated by lower Government compensations for lost revenues

- Increase in revenues mainly thanks to:
 - higher ticketing revenues (€59.3 mln, +€31 mln yoy) as result of recovery in passenger volume,
 - higher revenues from service agreement (€106.9 mln, +€4 million yoy) as a result of the increase in recognized costs,
 - decrease in other revenues (-€18.6 million yoy) due to lower Government compensation measures (nil in IQ2022, from €21.9 mln in IQ2021);
- Increase in EBITDA thanks to the increase in revenues, partially offset by higher personnel costs (+65 FTE) and higher costs for services;
- Net loss of €31.4 mln, due to the slight decrease in depreciation charges and lower deferred tax assets.

FNM Group | APL: IQ 2022 Highlights

Positive impact of traffic recovery

- Revenues increase thanks to traffic recovery, without increase in tariffs;
- EBITDA growth thanks to higher revenues and to the slight decrease in operating and personnel costs;
- Net loss to €1.5 mln, mainly due to higher financial charges.

FNM Group | From EBITDA to Net Result – PRO FORMA
